REMINDER

Furnishing Assignment Data at Time of Payment of Base Issue Fee

Practitioners are once again reminded of Rule 334, revised November 1969, which requires that . . . "At the time of payment of the issue fee, a statement must be furnished indicating whether or not an assignment has been filed with the Patent Office. In the event an assignment has been filed, such statement must include the name of the assignee and indicate whether or not an acknowledgment of a recorded assignment has been received from the Patent Office."

The Issue Fee Transmittal Form POL 85*b*, revised December 1969 and May 1973, provides space (Item 2) for Assignment Data which should be completed to comply with the Rule. Unless an assignee's name and address are identified in Item 2 of the Issue Fee Transmittal Form POL 85*b*, the patent will issue to the applicant. ***Assignment Data printed on the patent will be based solely on information so supplied.***

A request for correction of error arising from incomplete or erroneous information furnished in Item 2 of POL 85*b* will not be granted as a matter of course and will be subject to adherence to all the requirements of Rule 323.

The recording of instruments in the Assignment Division is not affected by this Notice.

WILLIAM I. MERKIN,

Trademark Seminar in Office Practice and Procedure

A Seminar in Office Practice and Procedures was established in 1973 as a training course for new trademark examiners. The course covers all phases of trademark law, office practice and procedure. The seminar deals with both substantive and procedural issues. Among the topics covered are types of marks, types of applications and registrations, ownership of marks, procedural and substantive examination of application, with emphasis on the statutory grounds for refusal to register, classification of goods and searching.

Members of the Seminar will prosecute a sample application through the various stages of Office procedures beginning with the initial examination and preparation of a first action, the final refusal to register based on statutory grounds, the writing of an examiner's statement on appeal, and concluding with an oral hearing before the Trademark Trial & Appeal Board.

Lectures are conducted by supervisory personnel, senior examiners, members of the Trademark Trial & Appeal Board and attorneys from outside the Patent Office.

The Seminar is given in the U.S. Patent Office, 2011 Jefferson Davis Highway, Crystal Plaza, Arlington, Va. The Seminar is conducted twice a year. The next course is scheduled for Feb. 3 to March 7, 1975. Classes meet from 9:00 A.M. to 11:30 A.M. Monday through Thursday.

While the course is intended for new trademark examiners, a limited number of applicants from government agencies and from outside the government will be accepted for training on a space available basis. The Seminar is normally limited to ten students. To be eligible for training, a candidate should possess a law degree, and be involved in trademark practice. The fee for attendance at this course is $400.00.

Additional information concerning this Seminar may be obtained from the Office of Trademark Program Control at the Patent Office. Inquiries should be addressed to the Commissioner of Patents, U.S. Patent Office, Washington, D.C. 20231, Attention: Office of Trademark Program Control, or by telephone at 703-557-3881.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sept. 1, 1973 rather than the international class which applies to applications filed on and after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of June 26, 1973 (911 O.G. TM 210).
